

Student's Name: _____

Photo Release Opt Out Form

You have the right to choose whether your student's photograph is published or not. The band posts photos on the band's password protected photo sharing site, and typically a photo of the entire band appears on the website's open home page. Student names or other identifying information are not posted with the photographs. If you want to prohibit the publication of photographs of your student in band media, put an X and sign below. **You do not need to return this form if you allow your student's photograph to be published.**

() Do not publish photographs of my student
